ABSTRACT

A telephone survey of 4,364 randomly selected households in Alaska aimed at assessing the needs of disabled persons who were not institutionalized. In households that were found to have a disabled member, 514 interviews were conducted with the disabled person or a representative. The survey provided information on: (1) an estimated 22,220 persons with selected disabilities (most frequently reported included nonneuromuscular mobility impairments, arthritis, hearing impairments, and learning disabilities); (2) needs related to independent living services including medical care, disability information, and benefits assistance; (3) reasons why people cannot get the specific help they need; (4) needs related to assistive technology such as remote switches or special doors; and (5) characteristics of Alaska residents who are disabled in terms of age, income, education and employment. The document features ethnic (native/white) and location (urban/rural) comparisons. Data are provided for each question on the survey with frequency tabulations reflecting an estimate of the statewide number of persons associated with a particular response. Appendices include a description of the survey methods, the questionnaire, and a data dictionary used in the software which analyzed the results of the survey. This document contains numerous tables and figures. (KS)

SUMMARY

Over 20,000 Alaska residents currently experience at least one form of disability. This estimate is based on a telephone survey of 4,364 households randomly selected to represent all households in the state of Alaska.¹ The survey was conducted between November 10, 1990 and January 28, 1991. The actual estimated number of persons experiencing a disability is 22,220. Given possible random errors due to sampling, the number of persons who are disabled may be as low as 20,231 or as high as 23,978.²

It is important to note that the survey did not attempt to assess the needs of persons who are disabled and live in institutional settings.

Types of Disabilities

Among the most frequently reported disabilities are non-neuromuscular mobility impairments, arthritis, hearing impairments, and learning disabilities (see Table 1). Other disabilities involving at least 2,000 Alaska residents include visual impairments, cardiovascular or pulmonary disorders, neuromuscular impairment, emotional disability, communicative disability and head injuries.

Independent Living Services

One of the central goals of persons who are disabled is to live independently. To help people achieve this goal, state, federal and local agencies currently offer services ranging from medical care to public transportation and job training. Relative needs for these services can be assessed in several ways. First is the question of the total number of persons needing each service.

¹Currently 86 percent of Alaska households have a telephone. The extent of telephone coverage varies widely, however; only about 60 percent of Alaska's most rural households have residential telephone service. Statewide estimates based on telephone contacts are likely to closely match estimates that could be expected from a sample of all households. Estimates for rural areas, however, should be used with caution.

²The range in population size reflects a 95 percent confidence interval, a sample size of 4,364 and an observed proportion of .042 percent of the population experiencing one or more disabilities.

Estimated Number of Persons with One or More Disabilities	22,220

The question read: I am going to read to you a list of disabilities that you may have. For each disability I read, would you please tell me whether this is a disability that you have.

Source: DVR/ISER Survey, 1990

Second is the question of the total number of persons whose need for each service is currently unmet. And third is the question of what percent of the persons needing each service are currently not receiving the service they need. Each of these perspectives is important to the development of service priorities for the state as a whole.

Medical care, disability information, assistance in receiving benefits, advocacy, recreation transport, newsletters, job training, centralized information, and counseling each are needed by at least 10,000 Alaska residents who are disabled (see Table 2). The service associated with the largest number of persons with an unmet need is a newsletter about services for people with disabilities. Other services that are currently not adequately provided to at least 5,000 people include centralized information, benefits assistance, and advocacy. In answer to the third question posed above, the needs of at least half of all persons are currently unmet for: newsletters, support groups, equipment loans, help locating housing, job counseling, central information source, and help with homemaking tasks.

Assistive Technology

Today many people with disabilities could benefit from the use of equipment especially designed or adapted to make daily life easier. This "assistive technology" comes in many forms, including remote switches, special doors, voice synthesizers, and special vans. Generally, more Alaskans believe they would benefit from such devices than currently use them (see Table 3). While some 5,000 think they would benefit from some kind of equipment that would help them see or hear people in face-to-face communications, for example, 1,900 do not currently use the equipment.³

Other forms of assistive technology for which at least 1,500 Alaska residents would benefit from use of the equipment include long distance communication, adapted computers for various uses, and building modifications.

Assistive Technology Services

Rapid changes in the types of assistive technology available represents both an opportunity and a barrier to those experiencing disabilities. Newly adapted technologies may enable people to significantly increase their independence. At the same time, rapid changes in the availability of new technologies can outpace public

³More detailed results to be introduced in Section IV show that the most common reason why this equipment is not used is that people cannot afford it.

knowledge. The greatest perceived need for services related to assistive technology is to be evaluated for what technologies are most appropriate (see Table 4). Second most important is information about new technologies. In fact, over half of the 6,000 Alaskans who think they can benefit from information of new technology do not think they are getting all the information they need. Other assistive technology service needs currently not being met for at least 2,000 Alaskans include financial help in obtaining assistive technology, accessible sales and service establishments, and opportunities to discuss technology needs with others.

A Profile of Alaskans Who Are Disabled

Figure 1 displays a profile of Alaska residents who are disabled. These figures can be compared to available data pertaining to the state population as a whole. Twenty-three percent of the disabled population is at least 60 years old compared to 7 percent of the entire population.⁴ Twenty percent of the population which is disabled is under 18 compared with 30 percent of the entire population. We do not have recent comparable information on income and education, but we do know that about 7 percent of the labor force is currently unemployed.⁵ This can be compared with 17 percent of the 7,954 persons who are disabled and in the workforce. The occupational profile of persons who are disabled does not differ markedly from the state workforce as a whole. Twenty-four percent hold professional, technical, or managerial jobs compared with 29 percent of all workers. Ten percent of both groups hold jobs in sales.⁶ Figures 2, 3, and 4 display comparable information by region.

TYPES OF DISABILITIES

Statewide, the most frequently reported disabilities are non-neuromuscular mobility impairments, arthritis, hearing impairments, and learning disabilities. Other disabilities involving at least 2,000 Alaska residents include visual impairments, cardiovascular or pulmonary disorders, neuromuscular impairment, emotional disability, communicative disability and head injuries.

The distribution of disabilities across Alaska appears to be generally proportional to regional population size (see Table 5). As expected, the major difference in the distribution of disabilities is by age (see Table 6). Young people are disproportionately more likely to report learning disabilities, communicative disorders, and developmental disabilities. Middle aged residents are more likely to experience drug or alcohol disabilities, head injuries, seizures, emotional disorders, and non-neuromuscular mobility impairments. The elderly are more likely to report the effects of strokes, alzheimer's disease, arthritis, hearing or visual impairments, and cardiovascular or pulmonary disabilities. Tables 7 and 8 present estimates of the numbers of persons experiencing specific disabilities by ethnic background and urban versus rural residence.⁷

⁷Urban is defined for the purposes of this report to include the Anchorage Municipality, the Kenai, Mat-Su, Fairbanks, Juneau, Ketchikan, and Sitka Boroughs, and Wrangell and Petersburg.

INDEPENDENT LIVING SERVICE NEEDS

As mentioned in our summary, medical care, disability information, assistance in receiving benefits, advocacy, recreation transport, newsletters, job training, centralized information, and counseling each are needed by at least 10,000 Alaska residents who are disabled. The service associated with the largest number of persons with an unmet need is a newsletter about services for people with disabilities. Other services that are currently not adequately provided to at least 5,000 people include centralized information, benefits assistance, and advocacy. The needs of at least half of all persons are currently unmet for: newsletters, support groups, equipment loans, help locating housing, job counseling, central information source, and help with homemaking tasks.

Table 9 profiles independent living service needs by region. The southcentral region is defined to include the Anchorage Municipality, the Kenai, Mat-Su and Kodiak boroughs, and southcentral coastal communities (e.g. Cordova, Valdez, Chenega Bay). As defined, this region comprises 50 percent of all households compared with 12 percent for the southeast region and 38 percent for the remainder of Alaska. The regional figures in Table 8 generally differ proportionately to regional population. Viewed according to urban and rural residence, independent living service needs are proportionate to population (see Table 10).

With several exceptions, independent service needs are shared proportionately by all age groups (see Table 11). Young people are more likely to need public transportation and independent living training. The large group of adults between 18 and 59 years old are more likely to need job counseling, job training, home modifications, help locating housing, and access to a support group. Persons over 60 are more likely to need help with homemaking tasks, in-home nursing care, and the services of a personal care attendant.

In general, independent living service needs do not differ by race (see Table 12). Three exceptions appear to be the three least needed services among the population as a whole. Native residents are relatively more likely to report the need for help with homemaking tasks, in-home nursing care, and the services of a personal care attendant.

Source: DVR/ISER Survey, 1990

The survey was designed to identify reasons why people cannot get the specific help they need. The remainder of this section on independent living service needs displays statewide estimates by type of service. The reader may find it helpful to refer to the questionnaire reproduced in Appendix B when reviewing the tabulations. The item number in the questionnaire is retained as the variable identifier (located to the left of the variable label) in the tabulations. The variable identifier "B1", for example, refers to question B1 in the questionnaire.

The numbers listed in the "Frequency" column of each tabulation reflect our best estimate of the statewide number of persons associated with a particular value. In the case of the first tabulation, for example, an estimated 1,989 Alaska residents currently get help with homemaking tasks. Of those 1,989, 1,772 are currently getting the help they need, indicating that for most the service they get is satisfactory. Turning to those who do not currently get any help with homemaking tasks, 1,643 need such help. Nineteen percent of those needing but not getting such help cite lack of knowledge about whether such help is available as the principal reason.

Much of the "meat" in the needs evaluation for independent living services is contained in the following pages. The interested reader can interpret the results using the above example as a guide.

Preceding task required 6.00 seconds CPU time; 15.19 seconds elapsed.

18 0 FREQUENCIES VARIABLES=E1 TO E30A/FORMAT=ONEPAGE

There are 15,739,808 bytes of memory available.

Memory allows a total of 32,767 values accumulated across all variables.
 There may be up to 8,192 value labels for each variable.

ASSISTIVE TECHNOLOGY SERVICE NEEDS

Rapid changes in the types of assistive technology available represents both an opportunity and a barrier to those experiencing disabilities. Newly adapted technologies may enable people to significantly increase their independence. At the same time, rapid changes in the availability of new technologies can outpace public knowledge. The greatest perceived need for services related to assistive technology is to be evaluated for what technologies are most appropriate. Second most important is information about new technologies. In fact, over half of the 6,000 Alaskans who think they can benefit from information of new technology do not think they are getting all the information they need. Other assistive technology service needs currently not being met for at least 2,000 Alaskans include financial help in obtaining assistive technology, accessible sales and service establishments, and opportunities to discuss technology needs with others.

Expressed needs for assistive technology services appear to occur in each of the three regions in proportion to their population (see Table 17). The elderly are somewhat more likely than their population size would suggest to have a need for assistive technology services (see Table 18). While they comprise 23 percent of the population of disabled persons, they account for 37 percent of the total demand for sales and service establishments for example. These findings are consistent with differences in the use of assistive technology devices as discussed in Section IV.

Needs for assistive technology services do not appear to differ by race or urban versus rural residence (Tables 19,20).

The following detailed tabulations indicate why specific assistive technology services are not used when needed.

(2-6-91)

APPENDIX A

METHODS

Survey Methods

The telephone sample frame contained all prefixes in the state, including residential numbers on military bases. ISER selected its sample of phone numbers using two methods. In more populated areas, ones with more than 2,500 residential tie lines, random four digit numbers within each prefix were generated. Samples were drawn so that the number of households selected in each prefix was, within random error, proportional to the size of the prefix. Thus, a prefix with 5,000 residential ties (i.e., assigned telephone numbers) had a sample size twice that of a prefix with 2,500 residential ties.

In areas where the prefix had fewer than 2,500 residential ties, the residential numbers contained in the most current telephone directories were entered directly into the computer. The samples were then drawn in proportion to the number of residential ties in the prefix. The size of each prefix sample was proportional to the number of residential main stations in the prefix; thus, the samples were self-weighting.

A selected telephone number could not be replaced unless: (1) it was a nonworking number; (2) it was a business number; (3) no one in the household had a disability; (4) an adult in the household declined to participate in the survey on two separate phone calls; (5) repeated contact attempts over at least a four day period, including both daytime and evening hours, failed to reach anyone at the dialed number; or (6) it was a household in which there was no eligible respondent (e.g. a motel room). The best single measure of the validity of the survey sample is its response rate. The response rate is calculated by dividing the number of completed interviews by the sum of the number of refusals, telephone numbers never answered, and the number of completed interviews. The response rate in this survey was 86 percent, a rate considered by survey researchers to confirm the validity of the sample.

ISER trained 16 interviewers in proper survey research techniques. The techniques are documented in the attached training manual. Each interviewer signed a pledge of confidentiality. Much of their training was directed toward the objective of ensuring that they read exactly what appeared in the questionnaire. A field director and an assistant field director monitored all interviewing to ensure instructions were followed. All calls were placed from ISER's telephone bank on the University of Alaska Anchorage campus.

Once the interviewer determined that the number reached was a residence, the household was screened to ascertain whether someone in the household had a disability. To ensure that each household heard the same definition of a disability all interviewers read the definition verbatim. Interviewers made calls to 3,903 households where no one had a disability. Within an eligible household every attempt was made to interview the person with the disability; when this was not feasible, frequently because of age or the type of disability, a representative was interviewed.

Initially, respondents were given the choice of completing the questionnaire over the phone or having it mailed to them so they could complete it at home. The majority of respondents chose to have it mailed to them. When the response rate began to Hoover at 22 percent the decision was made to stop offering respondents the option of having the questionnaire mailed to them. All remaining questionnaires were completed over the phone. After follow-up phone calls were made to respondents who had been mailed the questionnaire, the response rate rose to 86 percent.

Interviewers edited their questionnaires upon completion of the interview. A trained editor edited each questionnaire a second time. The survey data were entered on a microcomputer using software programmed to accept only valid response codes. The completed data set was then transferred to the University of Alaska VAX mainframe computer for processing with the Statistical Package for the Social Sciences, SPSSx. To ensure the confidentiality of all responses, telephone numbers were entered only from questionnaires where respondents had given permission to be called again; no other identifying information was coded or entered. ISER will permanently maintain the data file on the VAX system.

APPENDIX B
QUESTIONNAIRE

**DIVISION OF VOCATIONAL
REHABILITATION**

**INSTITUTE OF SOCIAL AND
ECONOMIC RESEARCH**

FALL 1990

Thank you for taking the time to complete this questionnaire. As I mentioned earlier, this study is being done for the Alaska Division of Vocational Rehabilitation. The interview will take about an hour of your time. You can choose not to participate in the survey or not to answer any questions that you don't wish to answer. Your answers will be kept strictly confidential and used only in combination with the answers of other Alaskans. If you have any questions, please call 786-7710 and leave a message for me to call you back.

If you are completing this questionnaire for the person who has the disability, please think of him or her whenever you see the word "you" or "your."

When you are finished, please mail the questionnaire back in the self-addressed, stamped envelope provided. We will take your name off the questionnaire once we get it so that your answers will be kept confidential. Again, thank you!

Virgene Hanna

SECTION A
DISABILITIES YOU MAY HAVE

A1. Which of the following disabilities do you have?
(Please circle the number that matches your answer)

YES NO

- | | | |
|---|---|--|
| 1 | 2 | a. Deaf? |
| 1 | 2 | b. Hearing impaired? |
| 1 | 2 | c. Blind? |
| 1 | 2 | d. Visually Impaired? |
| 1 | 2 | e. Arthritis? |
| 1 | 2 | f. Stroke? |
| 1 | 2 | g. Neuromuscular impairment? |
| 1 | 2 | h. Other mobility impairment? |
| 1 | 2 | i. Head injury? |
| 1 | 2 | j. Seizure disorder? |
| 1 | 2 | k. Mental retardation? |
| 1 | 2 | l. Chronic infectious disease? |
| 1 | 2 | m. Learning disability? |
| 1 | 2 | n. Communicative disorder? |
| 1 | 2 | o. Cardiovascular or pulmonary disorder? |
| 1 | 2 | p. Drug or alcohol abuse? |
| 1 | 2 | q. Diabetes? |
| 1 | 2 | r. Polio? |
| 1 | 2 | s. HIV positive? |

1 2 t. Emotional disability?

1 2 u. Amputation?

1 2 v. Alzheimer's?

1 2 w. Some other disability?_____

A2. If you have more than one disability, what is the letter in front of the main or most important condition that you have? (for example "v" for Alzheimer's)

(LETTER)

A3. How many years have you had this disability?

(RECORD NUMBER OF YEARS)

(Please continue with the next page)

SECTION B. SERVICES

B1. Does someone come to your home to help with **homemaking tasks**?

(Please circle your answer and follow the line down to the next question. If you get to an answer with no line down, please skip to the next question below the boxes)

1. YES

B2. Are you getting the help needed?

1. YES

2. NO

B2a. Why not?

2. NO

B3. Do you need help with **homemaking tasks**?

1. YES

2. NO

B3a. Why aren't you getting the help you need?

B4. Do you use the services of a **personal care attendant**?

1. YES

B5. Are you getting the services needed?

1. YES

2. NO

B5a. Why not?

2. NO

B6. Do you need the services of a **personal care attendant**?

1. YES

2. NO

B6a. Why aren't you getting the services needed?

B7. Does a nurse come to your home?

1. YES

2. NO

B8. Are you getting the services needed?

1. YES

2. NO

B8a. Why not?

B9. Do you need the services of a nurse in your home?

1. YES

2. NO

B9a. Why aren't you getting the services needed?

B10. Are you getting the medical care you need?

1. YES

2. NO

B10a. Why not?

B11. Do you use **public transportation** to get to work, to school, or to medical appointments?

1. YES

2. NO

B12. Are you getting the transportation needed?

1. YES

2. NO

B12a. Why not?

B13. Do you need transportation to go to these places?

1. YES

2. NO

B13a. Why aren't you getting the services needed?

B14. Do you use **transportation** to get to recreation or leisure-time activities?

1. YES

2. NO

B15. Are you getting the transportation needed?

1. YES

2. NO

B15a. Why not?

B16. Do you need transportation to participate in these activities?

1. YES

2. NO

B16a. Why aren't you getting the services needed?

B17. Have you made changes to get in and around the house more easily?

1. YES

2. NO

B18. Are these changes meeting your needs?

1. YES

2. NO

B18a. Why not?

B19. Do these changes need to be made?

1. YES

2. NO

B19a. Why haven't these changes been made?

B20. Have you looked for help to find affordable and accessible housing?

1. YES

2. NO

B21. Did the help meet your needs?

1. YES

2. NO

B21a. Why not?

B22. Do you need help?

1. YES

2. NO

B22a. Why haven't you been able to get it?

B23. What kind of work, if any, would be most satisfying for you?

B24. Have you received the education or training needed to do this kind of work?

1. YES

2. NO

B24a. Why not?

B25. Have you received professional help to get and keep a job?

1. YES

2. NO

B26. Did the help meet your needs?

1. YES

2. NO

B26a. Why not?

B27. Do you need help?

1. YES

2. NO

B27a. Why haven't you been able to get it?

B28. Have you received information about equipment that helps you stay independent?

1. YES

2. NO

B29. Did the information meet your needs?

1. YES

2. NO

B29a. Why not?

B30. Do you need information?

1. YES

2. NO

B30a. Why haven't you been able to get it?

B31. Has someone loaned you equipment so that you can see how well it works before buying it?

1. YES

2. NO

B32. Did the loan program work okay?

1. YES

2. NO

B32a. Why not?

B33. Is there equipment you would like to try before buying it?

1. YES

2. NO

B33a. Why haven't you been able to?

B34. Have you had training in how to live independently?

1. YES

2. NO

B35. Did you get the training needed?

1. YES

2. NO

B35a. Why not?

B36. Do you need training on how to live independently?

1. YES

2. NO

B36a. Why aren't you getting the training needed?

B37. Have you received counseling assistance in dealing with your disability?

1. YES

2. NO

B38. Did you get the counseling needed?

1. YES

2. NO

B38a. Why not?

B39. Do you need counseling assistance?

1. YES

2. NO

B39a. Why aren't you getting the counseling needed?

B40. Are you a member of a disability support group?

1. YES

2. NO

B41. Is the group meeting your needs?

1. YES

2. NO

B41a. Why not?

B42. Do you want to be a member?

1. YES

2. NO

B42a. Why aren't you a member?

B43. Have you received help to be sure that you are treated fairly and get the benefits you deserve?

1. YES

2. NO

B44. Have you received the help you need?

1. YES

2. NO

B44a. Why not?

B45. Have you needed help to be treated fairly and to get deserved benefits?

1. YES

2. NO

B45a. Why haven't you gotten help?

B46. Has some person or agency acted on your behalf to get the services that you need?

1. YES

2. NO

B47. Has this worked for you?

1. YES

2. NO

B47a. Why not?

B48. Do you need someone to act on your behalf?

1. YES

2. NO

B48a. Why haven't you gotten this help?

B49. Do you get information from one agency on issues that could affect you as a person with a disability?

1. YES

2. NO

B50. Has this agency given the information needed?

1. YES

2. NO

B50a. Why not?

B51. Do you need a single agency to go to?

1. YES

2. NO

B51a. Why haven't you been able to go to one agency?

B52. Have you received information about your disability?

1. YES

2. NO

B53. Did the information meet your needs?

1. YES

2. NO

B53a. Why not?

B54. Do you feel the need for information about your disability?

1. YES

2. NO

B54a. Why haven't you been able to get it?

B55. Do you get a newsletter about services for people with disabilities?

1. YES

2. NO

B56. Does the newsletter meet your needs?

1. YES

2. NO

B56a. Why not?

B57. Do you need a newsletter to keep up with new services?

1. YES

2. NO

B57a. Why haven't you received a newsletter?

B58. Is there a program to let your community know about the independent living needs of people with disabilities?

1. YES

2. NO

B59. Does the program work?

1. YES

2. NO

B59a. Why not?

B60. Does the community know enough about the independent living needs of people with disabilities?

1. YES

2. NO

SECTION C
PAST AGENCY CONTACTS

C1. We would like to know about specific agencies that may have provided services for you. Within the past years, has any agency provided you with services?

1. YES

2. NO _____ PLEASE SKIP TO PAGE 17

C1a. Which agencies have provided you with services?

(Please list all agencies that apply)

- 01. _____
- 02. _____
- 03. _____

SECTION D
ASSISTIVE TECHNOLOGY

D1. Now I would like to ask you some questions about different kinds of equipment that may help make your life easier. First, do you use some kind of **accessible transport equipment** such as an adapted van or an adapted bus?

1. YES

2. NO

D1a. Do you think you would benefit from having accessible transport equipment?

1. YES

2. NO — PLEASE SKIP TO PAGE 21

D1b. What stops you from having something like this?

PLEASE GO TO PAGE 21

D2. What kinds of equipment do you use? (Please circle the number of your choice, and write in the kind of equipment if it isn't listed.)

1. ADAPTED VAN

2. ADAPTED BUS

OTHER: 3.

4.

5.

D2a. If you listed more than one kind of equipment, please put the number matching the kind of equipment you need the most in the box below and think of it whenever we use the word "equipment" in the next series of questions.

D3. How many years have you used this present equipment?

(YEARS)

01. LESS THAN ONE YEAR

D4. For how many years does this equipment work before it needs to be changed, modified, or replaced?

(YEARS)

00. NEVER

D5. Would you please tell me to which of the following locations you travel using this equipment?

YES NO

1	2	a. Home
1	2	b. School
1	2	c. Work
1	2	d. Recreational facility
1	2	e. Sheltered workshop
1	2	f. Adult day program
1	2	g. Public facilities

D6. How many hours per week do you use this equipment?

(You may need to estimate this by multiplying average hours per day times number of days per week.)

(HOURS)

D7. Does this equipment meet your needs?

1. YES

2. NO

D8. Do you own it?

1. YES

2. NO ————— PLEASE SKIP TO QUESTION D10

D9. Who paid for the equipment?

<u>YES</u>	<u>NO</u>	
1	2	a. you
1	2	b. your family
1	2	c. by vocational rehabilitation
1	2	d. by school
1	2	e. by private insurance
1	2	f. by medicare
1	2	g. by the Veteran's Admin.
1	2	h. by medicaid
1	2	i. by a special grant
1	2	j. by SSI/SSDI funds (Social Security)

PLEASE SKIP TO THE NEXT PAGE

D10. Are you

<u>YES</u>	<u>NO</u>	
1	2	a. leasing it?
1	2	b. borrowing it?
1	2	c. sharing it?

D11. If you were to get a new piece of equipment, which method of payment would you prefer?

1. Buying it outright
2. Buying it on credit
3. Leasing it
4. Borrowing and returning it
5. Sharing it with others
6. Other _____

D12. In 1990 how much did you spend to keep and service the equipment?

(DOLLARS)

(Please continue with next page)

D13. Do you use some kind of equipment that helps to see or hear people who are in the same room with you (hearing aid, brailler, voice synthesizer, sound recognition device)?

1. YES

2. NO

D13a. Do you think you would benefit from having equipment that helps you see or hear?

1. YES

2. NO — PLEASE SKIP TO PAGE 25

D13b. What stops you from having something like this?

PLEASE GO TO PAGE 25

D14. What kinds do you use? (Please circle the number of your choice, and write in the kind of equipment if it isn't listed.)

1. HEARING AID

2. BRAILLER

3. VOICE SYNTHESIZER

4. SOUND RECOGNITION DEVICE

OTHER: 5.

D14a. If you listed more than one kind of equipment, please put the number matching the kind of equipment you need the most in the box below and think of it whenever we use the word "equipment" in the next series of questions.

D15. Next, for how many years have you used this present equipment?

(YEARS)

01. LESS THAN ONE YEAR

D16. For how many years does this equipment work before it needs to be changed, modified, or replaced?

(YEARS)

D61b. What stops you from having something like this?

PLEASE GO TO PAGE 41

D62. What kinds of equipment do you use? (Please circle the number of your choice, and write in the kind of equipment if it isn't listed.)

1. RAMPS

2. SPECIAL DOORS

3. CHAIR LIFT

OTHER: 4.

5.

D62a. If you listed more than one kind of equipment, please put the number matching the kind of equipment you need the most in the box below and think of it whenever we use the word "equipment" in the next series of questions.

D63. Next, for how many years have you used this present equipment?

(YEARS)

01. LESS THAN ONE YEAR

D64. For how many years does this equipment work before it needs to be changed, modified, or replaced?

(YEARS)

00. NEVER

D65. Would you please tell me in which of the following locations you use this equipment?

YES NO

1	2	a. Home
1	2	b. School
1	2	c. Work
1	2	d. Recreational facility
1	2	e. Sheltered workshop
1	2	f. Adult day program
1	2	g. Public facilities

D66. How many hours per week do you use this equipment?

(HOURS)

(You may need to estimate this by multiplying average hours per day times number of days per week.)

D67. Does this equipment meet your needs?

1. YES
2. NO

D68. Do you own it?

1. YES
2. NO _____ PLEASE SKIP TO QUESTION D70

D69. Who paid for the equipment?

<u>YES</u>	<u>NO</u>	
1	2	a. you
1	2	b. your family
1	2	c. by vocational rehabilitation
1	2	d. by school
1	2	e. by private insurance
1	2	f. by medicare
1	2	g. by the Veteran's Admin.

SECTION E. ASSISTIVE TECHNOLOGY SERVICES

We have just asked you about your use of equipment that may make your life easier. Now we would like to know about your use of services that may help you with your equipment needs.

E1. Have you gotten information about what new technologies are available?

1. YES

E2. Did the information meet your needs?

1. YES

2. NO

E2a. Why not?

2. NO

E3. Do you feel the need for information about new technology?

1. YES

2. NO

E3a. Why haven't you been able to get it?

E4. Have you found places that sell and service equipment that make your life easier?

1. YES

E5. Did the information meet your needs?

1. YES

2. NO

E5a. Why not?

2. NO

E6. Do you feel the need for information about new technology?

1. YES

2. NO

E6a. Why haven't you been able to get it?

E7. Has someone tried to figure out what equipment can help you most?

1. YES

2. NO

E8. Did they actually help?

1. YES

2. NO

E8a. Why not?

E9. Do you need someone to help you in this way?

1. YES

2. NO

E9a. Why haven't you been able to get this help?

E10. Have different agencies worked together to meet your equipment needs?

1. YES

2. NO

E11. Have they met your needs?

1. YES

2. NO

E11a. Why not?

E12. Are there agencies which need to work together?

1. YES

2. NO

E12a. Why haven't they worked together?

E13. Have you gotten help paying for equipment services?

1. YES

2. NO

E14. Has this help met your needs?

1. YES

2. NO

E14a. Why not?

E15. Do you need help paying for equipment services?

1. YES

2. NO

E15a. Why haven't you been able to get help?

E16. Have you talked with others about equipment needs and equipment services?

1. YES

2. NO

E17. Has this talking met your needs?

1. YES

2. NO

E17a. Why not?

E18. Would talking with others help you?

1. YES

2. NO

E18a. Why haven't you been able to talk with others?

E19. Have you been able to get your equipment repaired in a timely fashion?

1. YES

E20. Have the repairs worked?

1. YES

2. NO

E20a. Why not?

2. NO

E21. Does your equipment ever need repairs?

1. YES

2. NO

E21a. Why haven't you been able to get timely repairs?

E22. Have you gotten training and help in using equipment?

1. YES

E23. Has this training met your needs?

1. YES

2. NO

E23a. Why not?

2. NO

E24. Do you need training?

1. YES

2. NO

E24a. Why haven't you been able to get training?

E25. Have you had equipment changed to meet your needs?

1. YES

2. NO

E26. Have the changes worked?

1. YES

2. NO

E26a. Why not?

E27. Do you need any equipment changed?

1. YES

2. NO

E27a. Why haven't you been able to get this equipment changed?

E28. Have you gotten money for transportation to places which can help with your equipment needs?

1. YES

2. NO

E29. Has this money met your needs?

1. YES

2. NO

E29a. Why not?

E30. Do you need money to get to these places?

1. YES

2. NO

E30a. Why haven't you been able to get money?

E31. Do you have access to the buildings where people are that can help with your equipment needs?

1. YES

2. NO

E32. Do you have a say in decisions about the help you get with your equipment needs?

1. YES

2. NO

SECTION F
BACKGROUND CHARACTERISTICS

F1. We're almost done. We just have a few background questions to ask. Could you tell us your age?

(YEARS)

(Answer Question F2 if you are at least 18)

F2. Are you currently working full time, working part time, unemployed and looking for work, unemployed and not looking for work, a student, or something else?

- ☐ 1. WORKING FULL TIME
☐ 2. WORKING PART TIME
☐ 3. UNEMPLOYED AND LOOKING
☐ 4. UNEMPLOYED BUT NOT LOOKING
☐ 5. STUDENT
☐ 6. RETIRED

→ F2a. What is your usual occupation?

F2b. Are you a registered voter?

1. YES
2. NO

F3. What is your race or ethnic origin?

- | | |
|------------------------------|--------------------|
| 10. White | |
| 20. Alaskan Indian | 23. Alaskan Eskimo |
| 21. Southeast Alaskan Indian | 24. Inupiat Eskimo |
| 22. Athabascan | 25. Yupik Eskimo |
| 26. Alaskan Aleut | 27. Alaskan Native |
| 28. American Indian | |
| 30. Black | |
| 40. Asian/Pacific Islander | |
| 50. Hispanic | |

F4. Do you live

- 01. Alone
- 02. With spouse and/or children
- 03. With parents
- 04. With other relatives
- 05. With friends
- 06. With an attendant
- 07. In a group home
- 08. In a nursing home
- 09. In a hospital
- 10. In a treatment center

F5. What is the last grade of school or year of college you have completed?

(GRADE)

17. 17 OR MORE YEARS

F6. What was your household's income for 1989 before taxes and other deductions were made? (Please write in the figure to the nearest thousand dollars. What is your best guess?)

F6a. We don't need the exact dollar figure; will you indicate which of these broad categories it falls in: less than \$5,000, between \$5,000 and \$10,000, between \$10,000 and \$20,000, or more than \$20,000?

- 1. Less than \$5,000
- 2. \$5,000 - \$10,000
- 3. \$10,000 - \$20,000
- 4. \$20,000 or more

F7. Could you please let us know all sources of your income?

YES NO

- | | | |
|---|---|------------------------------|
| 1 | 2 | a. Employment |
| 1 | 2 | b. Social Security |
| 1 | 2 | c. Other Public Assistance |
| 1 | 2 | d. Other Disability Benefits |
| 1 | 2 | e. Self-Employment |
| 1 | 2 | f. Family Contributions |
| 1 | 2 | g. Fish or Farm Income |
| 1 | 2 | h. _____ |
| 1 | 2 | i. _____ |

F8. Are you male or female?

1. Female
2. Male

F9. Do you know a person with a disability who doesn't have a phone?

1. YES
2. NO

F10. Thank you. Those are all of our questions. The Division of Vocational Rehabilitation would like to know if they can use your phone number to contact you again if they decide to do a follow-up. Do you want them to have your phone number?

1. YES →
2. NO
